## CAREER OBJECTIVE

---

Passionate computer science student seeking a dynamic position in a forward-thinking organization. Open to relocation for new challenges and to contribute innovative solutions that drive positive change in the field. Committed to continuous learning and making a meaningful impact through technology.

## EDUCATION

---

### University of Houston

*Bachelor in Computer Science, Minor in Mathematics*

Houston, TX

*Aug. 2021 – Fall 2024*

### Lone Star Community College CyFair

Cypress, TX

*Aug. 2019 – May 2021*

### Texas Tech University

Lubbock, TX

*Aug. 2018 – May 2019*

## WORK EXPERIENCE

---

### Software Engineering Intern

*Talos Energy*

Houston, TX

*June 2024 – August 2024*

- 
- 
- 

### Store Associate

*Duluth Trading Company*

Katy, TX

*Oct. 2021 – Present*

- \* Collaborated with over 20 team members to ensure consumer satisfaction
- \* Upheld high standards of productivity and quality in operations
- \* Worked on logistical operations such as handling, packaging, and shipping online orders

## PROJECTS

---

### Azure Image Analysis | C#, Azure, ASP .NET, VS Code, React, JavaScript

August 2023 - September 2023

- \* Used the Microsoft Azure image analysis REST API, to analyze images and generate text based captions
- \* Used the ASP .NET Core framework for the back end, and used React and JavaScript for the front end in order to develop a functioning web app where a user can upload an image and have it analyzed.
- \* Became more familiar with the Azure library and the ASP .NET core framework, as well as get a better understanding of how to combine a front end and back end in order to have a fully functional web application

### Database Enterprise Project | JavaScript, Express.js, SQL, Git, Git Hub

October 2023 – November 2023

- \* Collaborated with a team of four to design and implement a database application using SQL, JavaScript, and Express.
- \* Contributed to development by implementing the clear tables feature, the ability to add new restaurants, ability to add new food items, and the ability to perform transactions
- \* Utilized JavaScript and Express to create a responsive and interactive user interface.

### Video Game Development Project | C#, Unity, Git, Git Hub

August 2023 – November 2023

- \* Collaborated with a team of seven to design a video game using unity and c#
- \* Successfully navigated challenges, such as diverse perspectives, and general collaboration issues, by fostering a collaborative environment and working collectively towards solutions
- \* Emphasized the importance of teamwork in problem-solving and adapting to unforeseen obstacles, resulting in the successful completion of the project.

## TECHNICAL SKILLS

---

**Languages:** C#, SQL, Python, C++

**Frameworks:** ASP .net core, Express, Angular

**Developer Tools:** Git, VS Code, Unity, Azure
